### Empowering a Community to Thrive

We are not creating “business as usual” social programming. We are creating community.

In our beautiful neighborhoods, families and seniors receive affordable housing with onsite programs designed to facilitate connections and encourage supportive relationships between neighbors.

Seniors are a valued cornerstone of the community – running after school programs for the children and babysitting for the families. In return, they receive onsite fitness and wellness programs and have the opportunity to participate in social activities with their peers.

### In their words...

*“I turned 18 a month before I graduated from high school. The day after graduation I was kicked out of my foster home where I’d been living for 2 years. I was 18, a high school graduate on my way to college in the fall, and I was homeless.”*

Nicole, Former Foster Youth

### Community Benefits

#### For Children:

- Permanent, loving parents
- An opportunity to stay with their brothers and sisters
- A safe neighborhood where more than one adult commits to their wellbeing
- Honorary grandparents
- Emotional healing

#### For Parents:

- Onsite social workers and a community facilitator
- Senior neighbors who help care for their children
- Professionally led training and classes
- Access to extended offsite community resources

#### For Seniors:

- A community where their presence matters
- An opportunity for extended family
- Professionally-led fitness and wellness programs

### Built To Be Replicated

Our first community is being built from the ground up with replication in mind. We are developing a model which will be replicated in other counties in California.
